

JACK-UP
OFFSHORE
SUPPORT
SERVICES

Seafox

Seafox is a leading global offshore jack-up accommodation support vessel company providing services to support the oil & gas and renewable industry. We own and manage twelve self-elevating jack-up units. Our customers benefit from our wealth of experience in accommodation & crane support, well testing & workover, transport & installation, plug and abandonment and decommissioning. Furthermore, Seafox offers temporary accommodation units for offshore locations and on board vessels.

We operate in Europe, the Middle East & North Africa (MENA), and the Asia-Pacific region. The combined Seafox fleet can accommodate over 2400 POB, with units suited for water depths up to 107 metres and crane capacities up to 300 ton.

We always strive to meet and exceed our customers' expectations by offering global expertise and local knowledge.

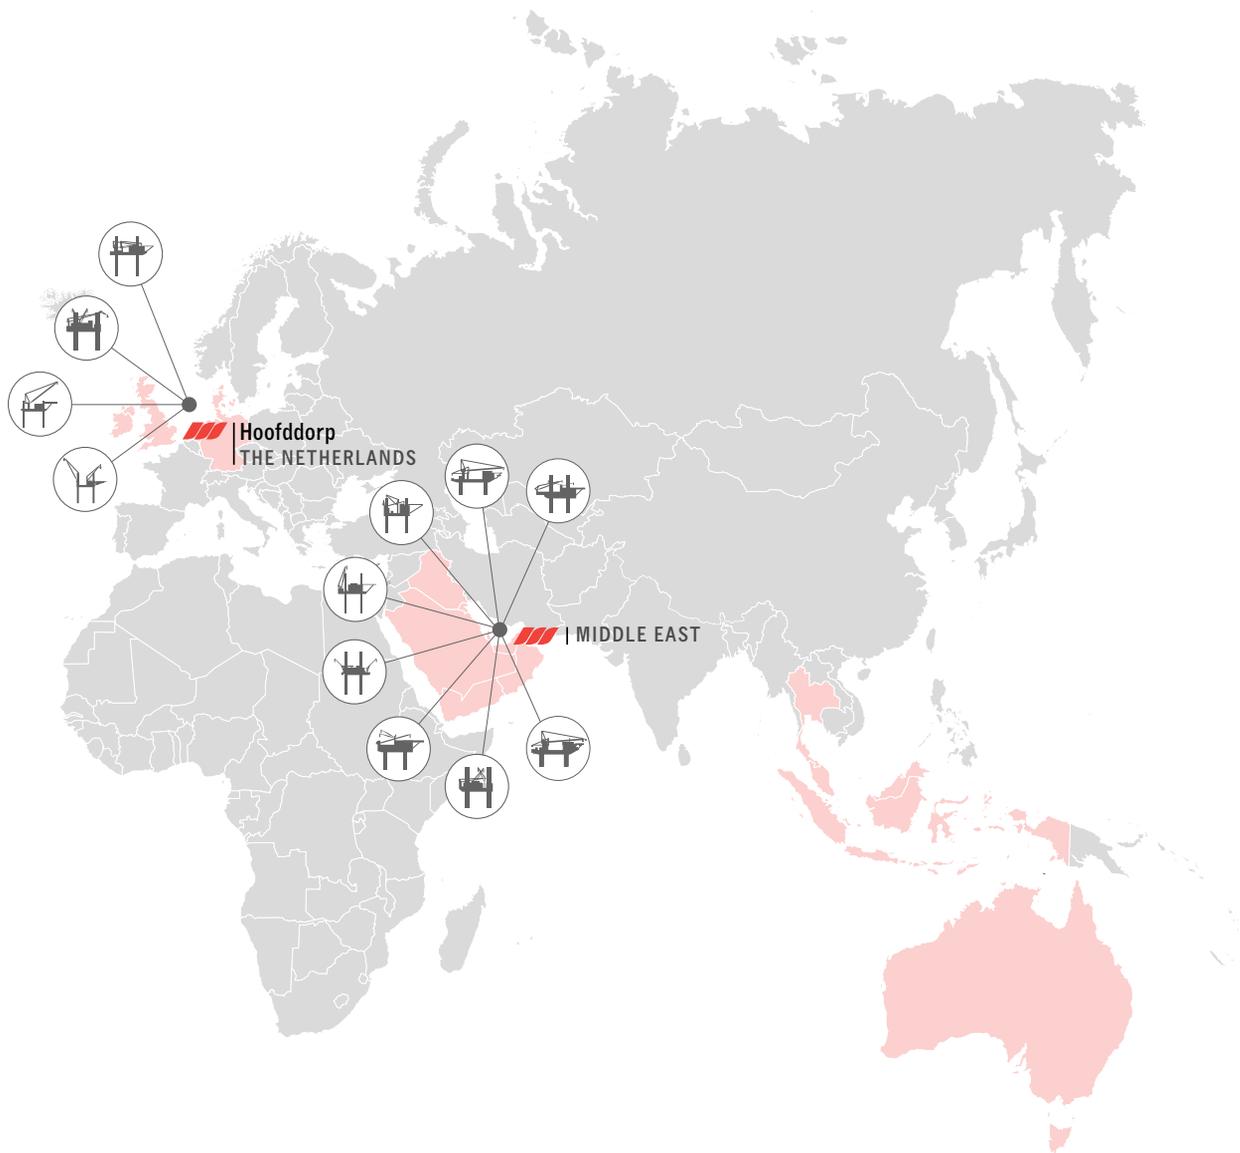

Therefore we rely on the combination of our versatile units and the dedication, knowledge and experience of our personnel to ensure safe and successful execution of projects worldwide. This is reflected in the confidence and (renewed) commitment we receive from national and international clients within the energy industry.

Global reach

Seafox is the world's largest offshore jack-up ASV company with a global reach spanning Europe, the Middle East & North Africa (MENA), and the Asia-Pacific region.

We offer a global spread and in-depth knowledge of the local markets as you will be serviced by highly experienced local offshore and onshore staff totalling approximately 500 employees.

Seafox has more than 29 years of experience in the offshore industry. Our people have a strong operational philosophy and heritage. We are determined to always deliver without ever compromising safety and quality.

Mission

We are passionate about providing our customers with safe, dedicated and competent services through the combination of our people, values and assets.

Vision

To be the world's first choice offshore support jack-up company in the energy industry, meeting and exceeding customers' expectations by offering safe offshore services through global expertise and local knowledge.

Company values

Flexibility

We anticipate and prepare for the unexpected by empowering our people to always achieve and exceed set goals by believing anything can be done.

Integrity

We always act with the highest level of business ethics; we act openly and honestly and comply with international as well as local rules and regulations.

Reliability

We expect everyone to be a safety leader conducting business with the utmost respect for human life as well as the environment. We always deliver without ever compromising on safety and quality.

Safety

We take responsibility for our own safety and for others. Believing all injuries are preventable and strive for safety perfection. Our operations and company's success depends on the wellbeing of one another.

Teamwork

We value relationships and seek to build strong ties with our customers, stakeholders and suppliers, working together with passion, fun and pride to achieve success.

Safety & compliance

Seafox is a dedicated and professional organization with a strong focus on quality and safety on all levels. Both onshore staff and marine crew are highly-qualified, fully-trained and quality & safety-conscious professionals.

The Seafox fleet is maintained and upgraded to the highest standards through preventive maintenance systems. The units operate under an accepted Safety Cases for accommodation, maintenance and well services activities worldwide.

We have been approved by DNV Quality Assurance for ISO 9001 Quality

Management Systems standard, ISO 14001 Environmental Management Systems standard and ISO 450001 Occupational Health and Safety Management Systems standard. The Seafox units also comply with the safety and pollution prevention requirements of IMO Resolution A.741 (18).

PROVIDING SAFE AND
RELIABLE OFFSHORE SERVICES
IS WHAT WE STAND FOR

Fleet status summary in water depths of up to 50 meters

SEAFOX 1

Length (o.a.):	64 m
Breadth:	40 m
Depth:	5 m
Deckspace:	600 m ²
Main crane capacity:	300 t
Accommodation:	76 POB
Max water depth:	40 m

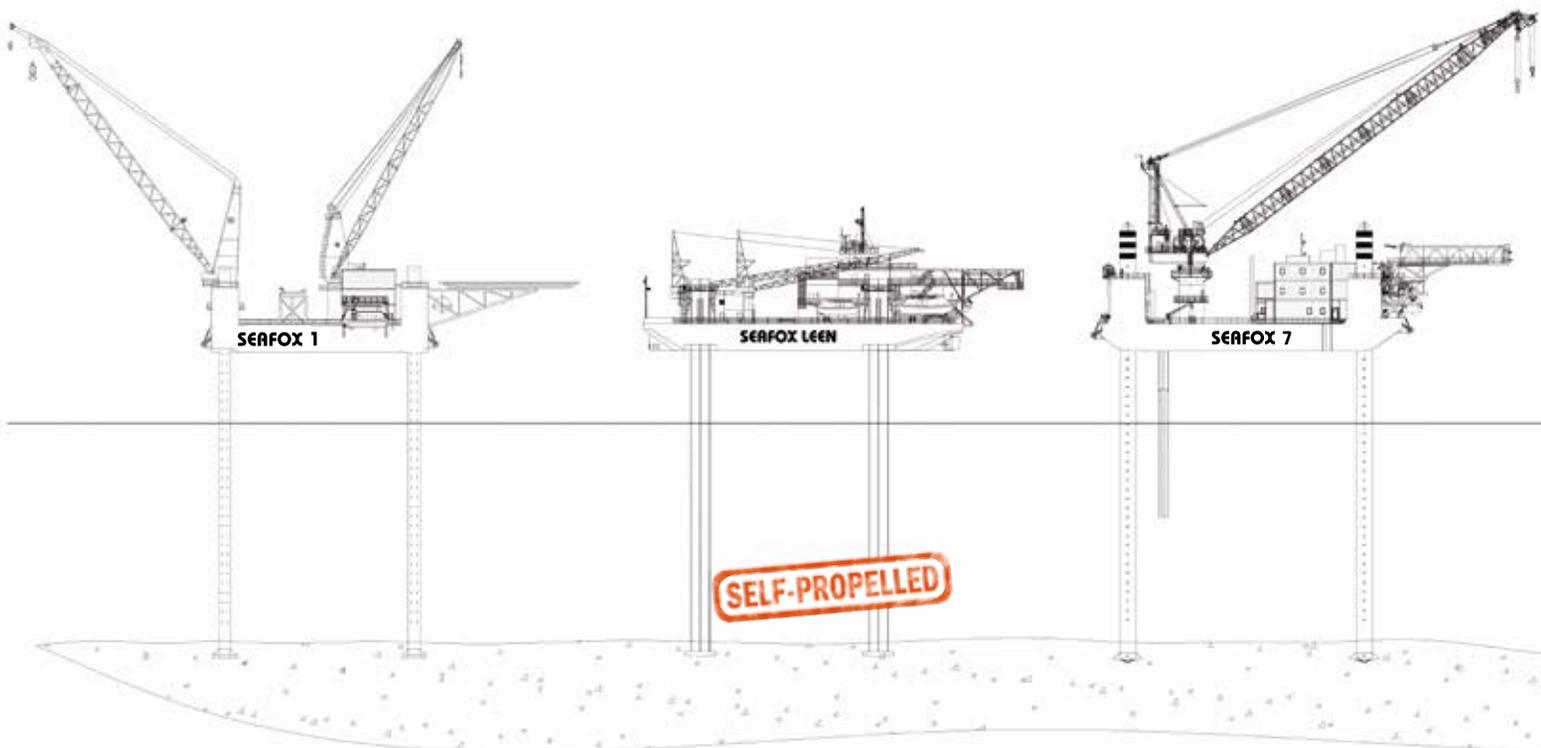

SEAFOX LEEN

Length (o.a.):	70 m
Breadth:	32 m
Depth:	5 m
Deckspace:	423 m ²
Main crane capacity:	37 t
Accommodation:	161 POB
Max water depth:	40 m

SEAFOX 7

Length (o.a.):	75 m
Breadth:	32 m
Depth:	5 m
Deckspace:	700 m ²
Main crane capacity:	270 t
